

THE COMPASS NETWORK

Business Compass

Build What You're Meant to Build.

A BUSINESS COMPASS WHITEPAPER

Clarity without confusion.

Structure without chaos.

Execution without fragmentation.

THE COMPASS NETWORK'S FOUNDING PROMISE — APPLIED TO YOUR BUSINESS

THE PROBLEM WE SOLVE

Most Businesses Are Built on Guesswork

Every business owner eventually faces the same questions: what to build, how to structure it, who should be doing what, and when to scale.

Most people answer with borrowed playbooks, generic courses, or gut instinct — not for lack of ambition, but because no one ever showed them a structured way to decide.

Business Compass exists to replace guesswork with structure.

Building — without knowing if it's the right structure.

Scaling — without knowing if you're the right person to run it.

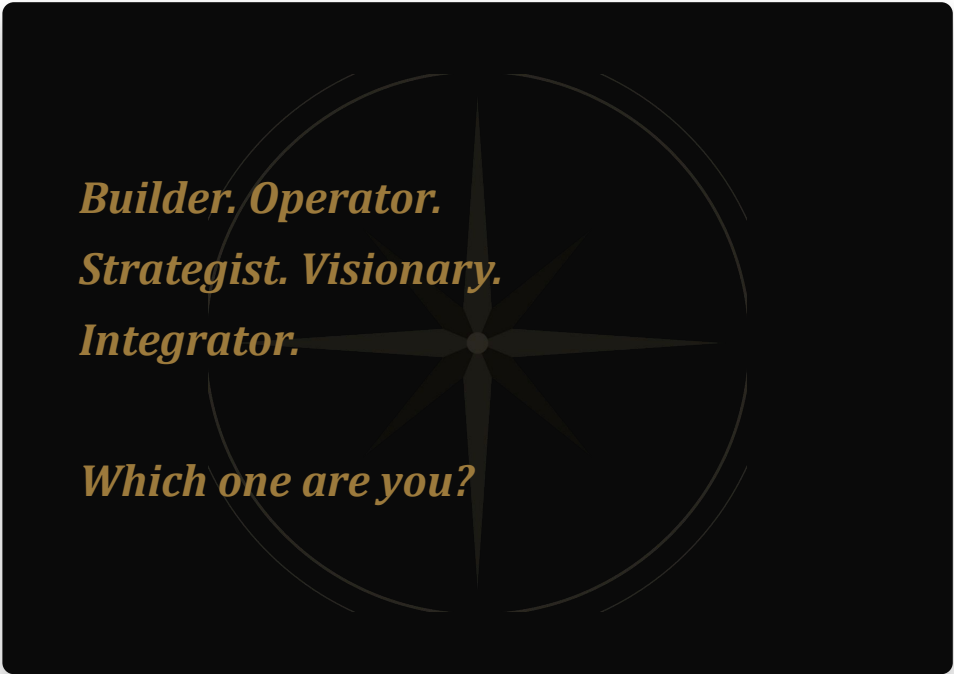

Deciding — without anyone qualified to pressure-test it.

OUR PHILOSOPHY

Business Built on Alignment, Not Guesswork.

Not everyone is meant to build the same type of business — or play the same role within one. Some people are builders. Some are operators. Some are strategists, visionaries, or integrators. Business Compass starts with identity, not industry — before any plan gets built, at any level of engagement.

Builder. Operator.
Strategist. Visionary.
Integrator.
Which one are you?

WHAT IT IS

One In-House Division. Three Ways to Engage.

Business Compass is one of four integrated Compass Points. It is not a marketplace, not a directory of independent consultants, and not a referral network.

Discovery First

Every engagement starts with a Business Alignment Discovery — identity, strengths, and decision style — before any plan gets built.

Built In-House

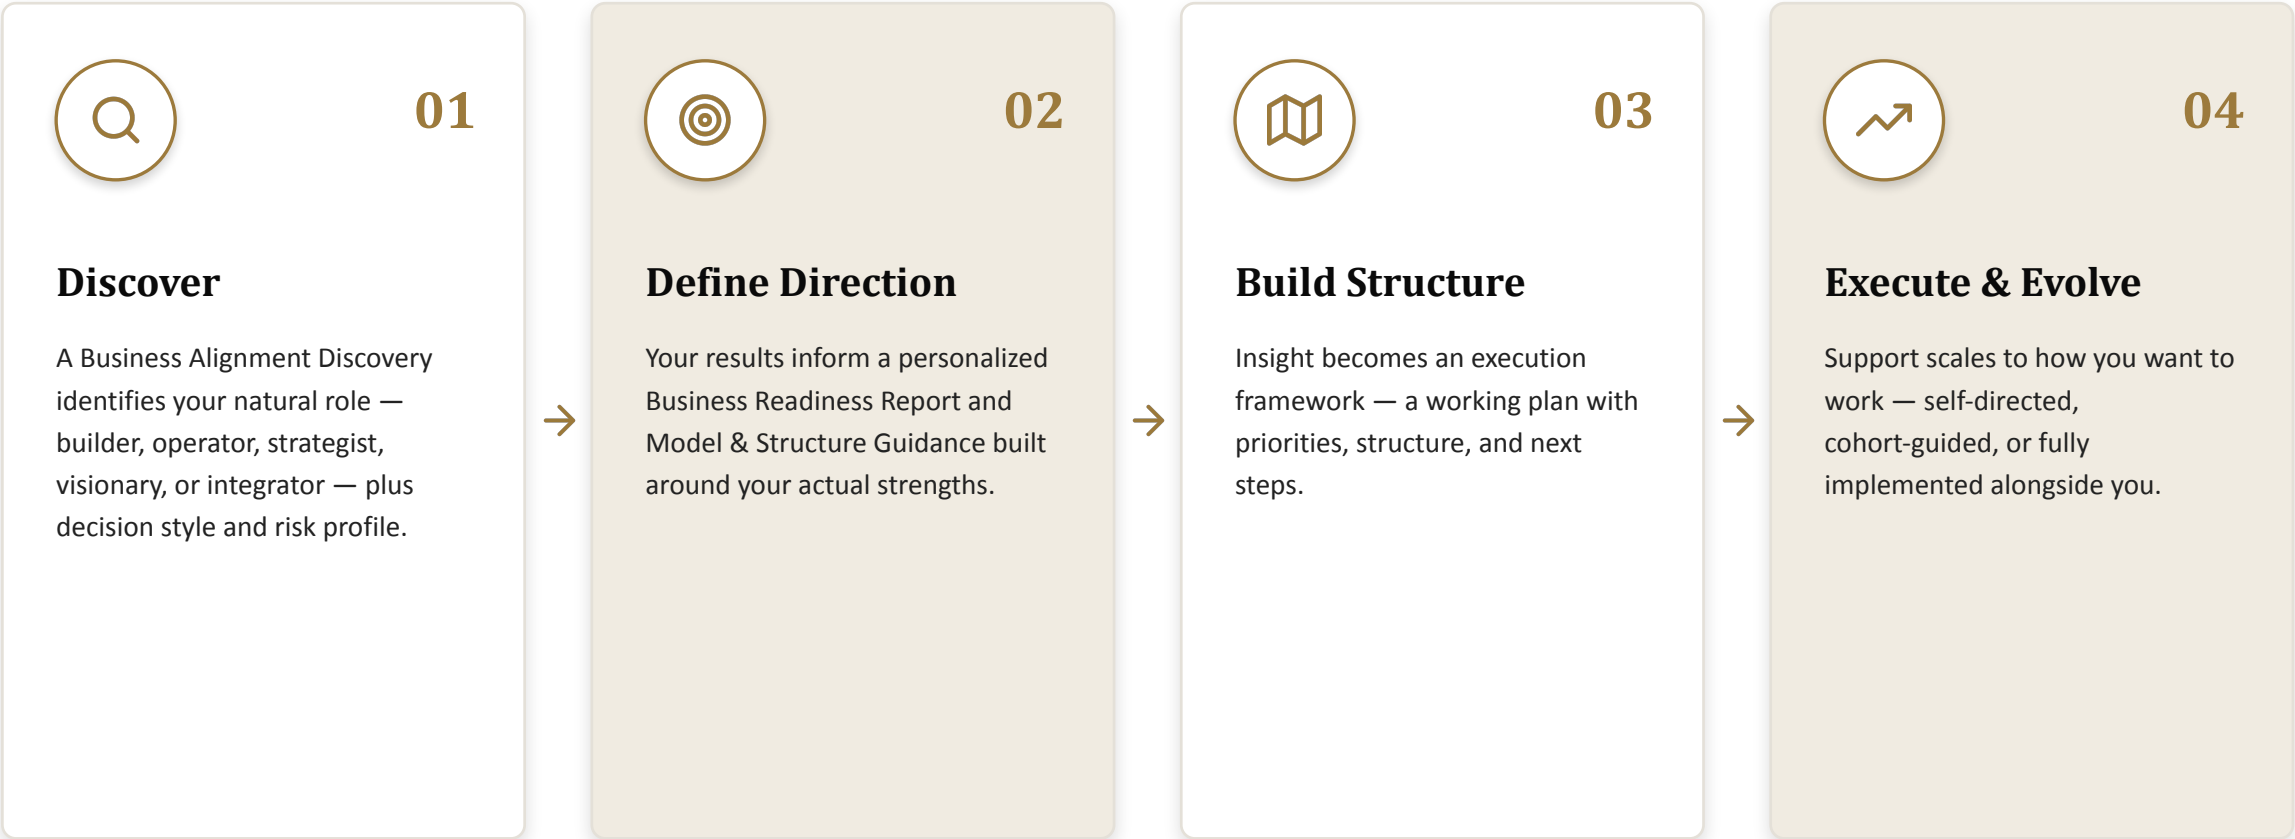

The frameworks, reports, and guidance are designed and delivered by the Compass Network's own Business & Strategy Team.

End-to-End Execution

From first insight to a fully built structure, the same team and methodology carry the business owner through — at whatever level they choose.

From Alignment to Structure to Execution

Same Methodology. Different Levels of Support.

However you engage, the methodology is identical. What changes is how much of the execution the team carries for you.

Self-Guided

Take the Business Alignment Discovery and receive your Business Readiness Report and execution frameworks — then implement at your own pace.

Best for: owners who want clarity and already have the bandwidth to execute.

Mastermind

Everything in Self-Guided, plus a curated cohort of aligned founders, recurring accountability sessions, and direct access to the in-house team.

Best for: owners who want structure and a room full of people building at the same level.

Done-For-You

Everything in Mastermind, plus the in-house team implements the plan directly, alongside you.

Best for: owners who want it handled, not just guided.

COMPARE THE LEVELS

Find the Right Level of Support

	SELF-GUIDED	MASTERMIND	DONE-FOR-YOU
Business Alignment Discovery	✓	✓	✓
Business Readiness Report	✓	✓	✓
Execution Frameworks	✓	✓	✓
Cohort & Peer Accountability	—	✓	✓
Ongoing In-House Team Access	—	✓	✓
Direct, Hands-On Implementation	—	—	✓

WHO IT'S FOR

Built for Every Stage of Ownership

Aspiring founders who want structure before they launch, not damage control after.

Existing business owners who've hit a plateau and can't see the next structural move alone.

Operators and founders seeking clarity on their own role before their next hire or investment.

Entrepreneurs at a genuine crossroads: build, pivot, or scale — unsure which one fits.

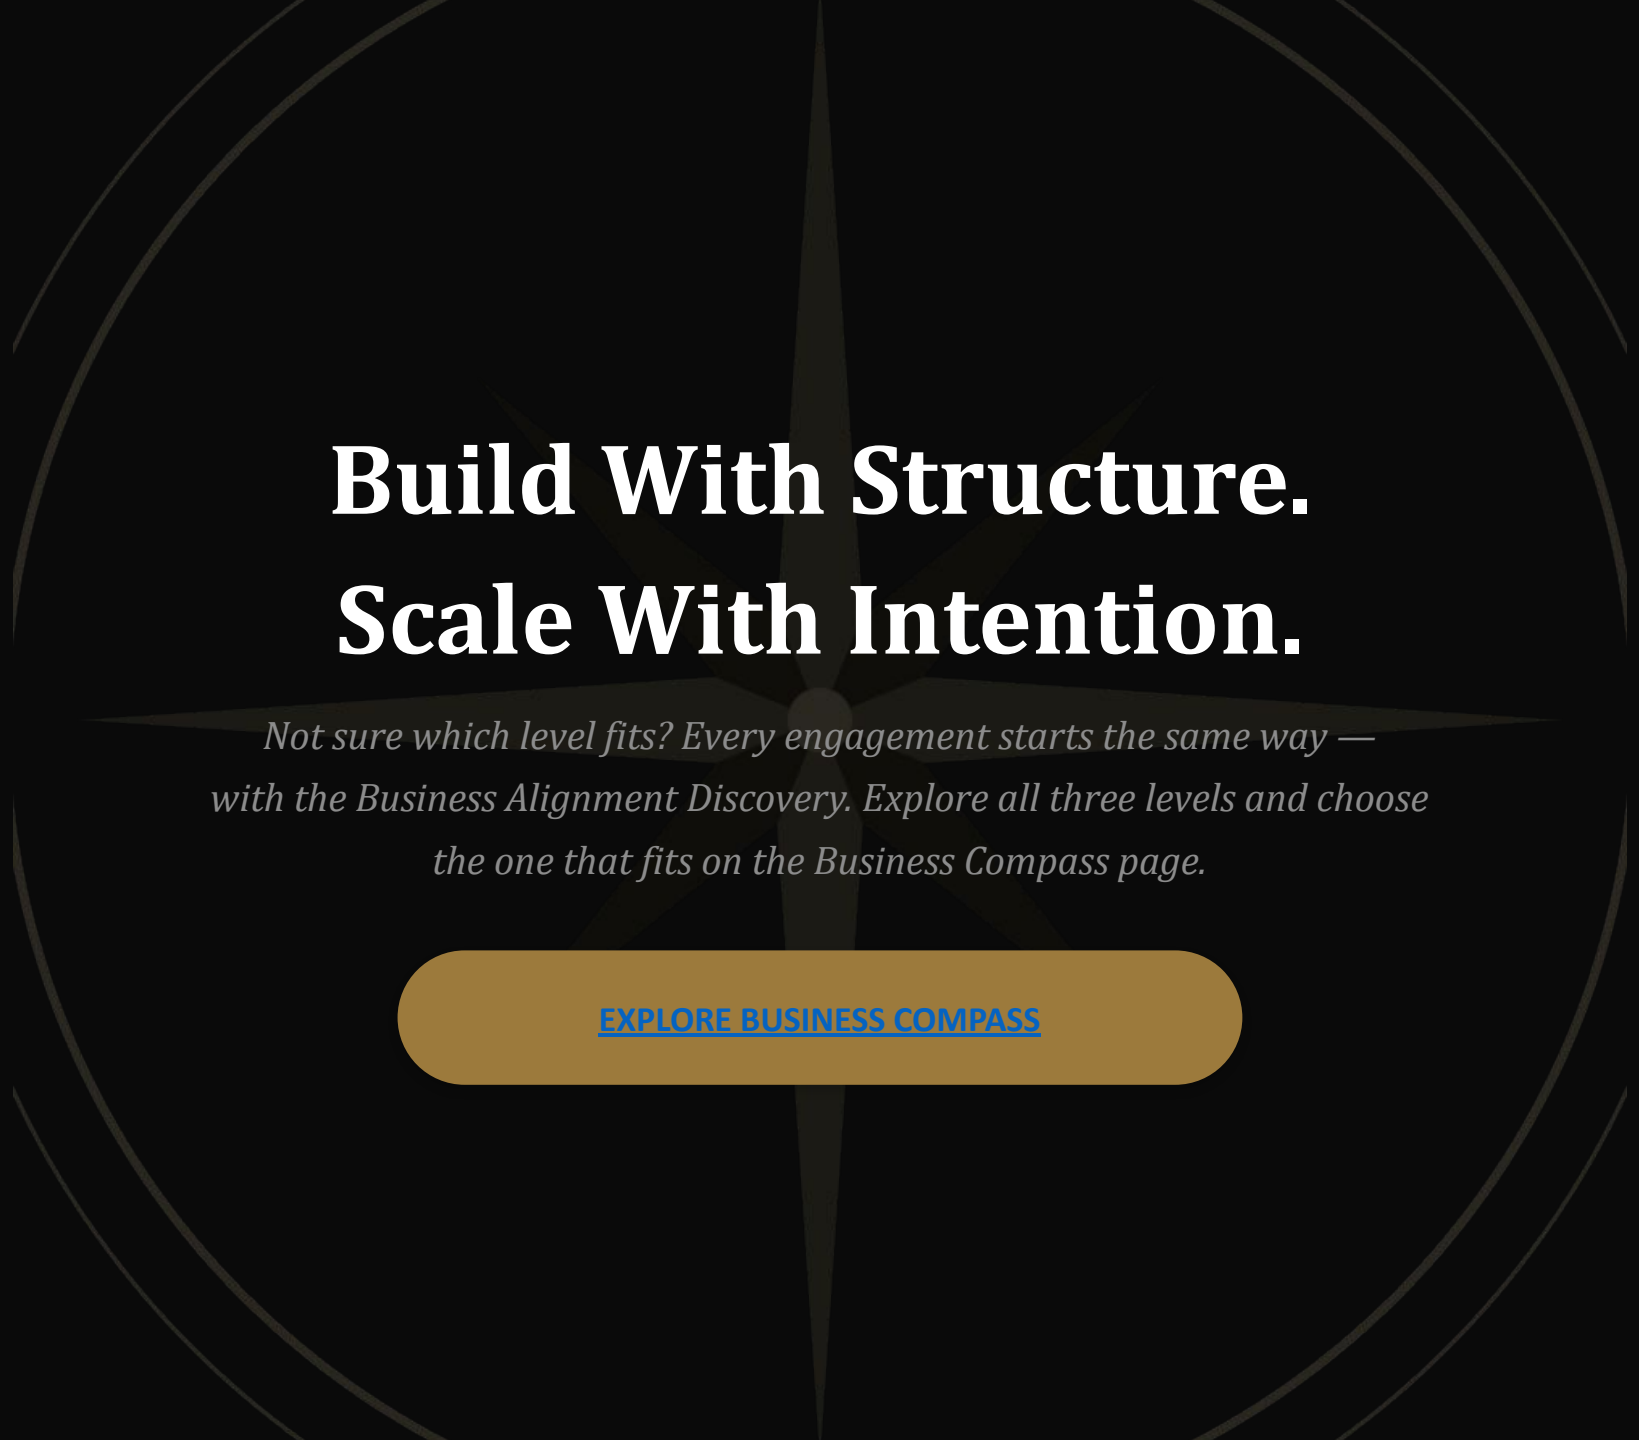

WHAT YOU WALK AWAY WITH

Clarity, Backed by the Right Level of Support

- ✓ A clear, evidence-based understanding of your natural role and decision style as a business owner.
- ✓ A personalized Business Readiness Report and a model built around your actual strengths.
- ✓ A working execution framework with concrete priorities and next steps.
- ✓ The right level of support for how you actually want to work — alone, in a cohort, or hands-on with our team.

A note on outcomes: Business Compass guidance is designed to support informed, confident business decisions — not to guarantee specific revenue, growth, or business outcomes. Individual results depend on personal circumstances, market conditions, effort, and execution.

Build With Structure. Scale With Intention.

*Not sure which level fits? Every engagement starts the same way —
with the Business Alignment Discovery. Explore all three levels and choose
the one that fits on the Business Compass page.*
